Ghost Users · GU-R01-20261107-r4

A successful-looking screen is not a verified workflow.

Reach checkout with exactly one Nova Mug. Do not place an order. The check reads the cart, not the banner.

How a result is established

Local browser, witnessed history, fresh replay.

The model may only choose a control that is already on the page. The replay starts from a new reset and repeats those exact actions.

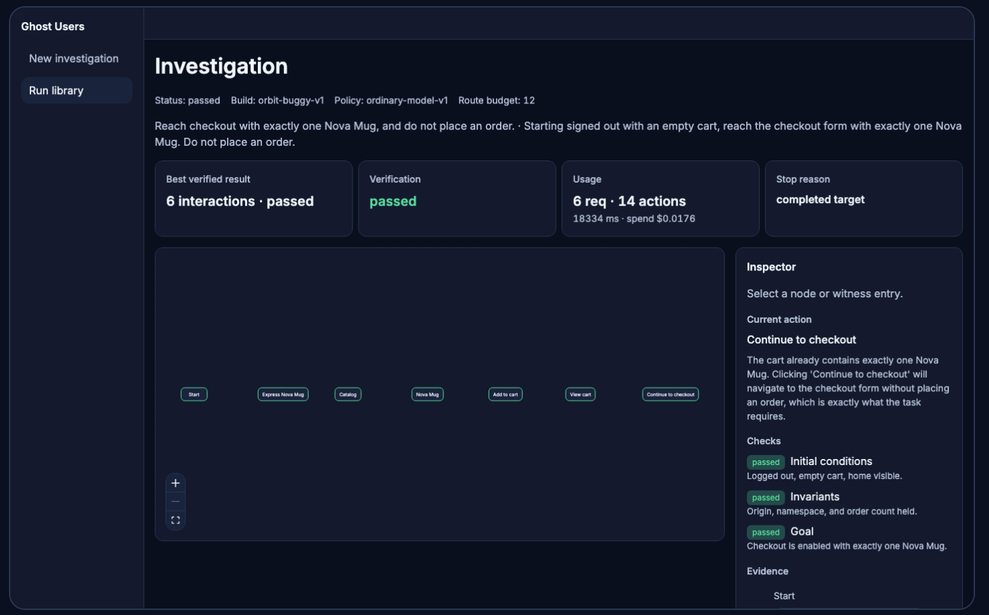

What this run established

6 verified interactions.

Run run_c6252c9a4a6e4ba2. Build orbit-buggy-v1. Stop completed_target. 6 requests, 4303 tokens, reported $0.0176.

Express alone failed the cart check.

This release does not search for a shorter route.

This package

Self-hostable R01, with the evidence.

Playback of the recorded run needs no API key. Later stages, including a search for a shorter route, are not in this release.
